ALL JUTE QUALITIES AT A GLANCE

THERMO JUTE 100 PLUS

THERMO JUTE 100 PLUS is the consistently ecological new product in our jute assortment. Nature pure made from high-quality jute fibres and purely plant-based bi-component fibres.

Best summer heat protection!

European Technical
Approval: ETA-
14/0479

CE

THERMO JUTE 100

With **THERMO JUTE 100** the jute fibre shows what it is made of. Excellent regarding the conservation of resources. Impressing characteristics in building physics. And – like all the other THERMO NATUR insulation materials – free of pollutants and durable.

Best summer heat protection!

European Technical
Approval: ETA-
14/0479

CE

- ➔ **Palletising:** Palletising of customized measures on request. Standard measures 1.20 x 0.580 m and 1.20 x 0.625 m can be palletised. A forklift must be available for unloading.
- ➔ **Customised manufacturing without surcharge:** We offer customised manufacturing without surcharge already for 40 mats of the same width and the same thickness. For less than 40 mats there is a surcharge of 20%. Customised manufacturing is not possible for less than 20 mats. It is also possible to order the measure in 2.400 x 1.000 mm without surcharge for 40 mats or more.
- ➔ **Customised manufacturing is only possible in width,** which must be between 40 cm and 120 cm. It is not possible to return mats that have been manufactured to specification.
- ➔ **Single mat packages** can be sent by parcel service (**please see page 35**).

All prices indicated are **list prices** excl. VAT

THERMO NATUR INSULATION MATERIAL

Fields of application: Roof, sloping roof, exterior and interior walls, floor and ceiling

ROLLS

Roll length in m	Thickness in mm	Price per m ²	Price per m ²	Price per m ²	Price per m ²

TOOLS FOR THERMO NATUR INSULATION MATERIAL

Article	Description	List price / piece
96BGFZ	Electric saw Bosch GFZ 16-35	535.00 €
96FSMSTH	Blade set for electric saw (for Thermo Hemp)	43.00 €
96MSSGP	Professional sharpener	37.50 €
96WSHM	Serrated knife	16.00 €

All prices indicated are **list prices** excl. VAT

➔ PLEASE NOTE

We recommend to use a Bosch electric saw for a proper and easy cut of the THERMO NATUR insulation mats..

THERMO JUTE

THERMO HEMP

THERMO JUTE 100

COMPRESSED ROLLS

Detailed information:

The compressed rolls are available in thicknesses 60, 80, 100, 120 and 140 mm.

There are 8 rolls on a pallet, the pallet measures are 120 x 120 cm, the height between 180 and 220 cm – depending on the thickness of the roll.

The insulation volume per pallet is therefore between 4.61 m³ and 4.8m³.

Your advantage:

You only need one width per thickness in order to cover all measures required for insulation.

Thus it is easy to cover all required measures without having different widths in stock.

Article	Thickness in mm	Length in m	Width in m	m ² per pallet	List price per m ²
44KOMP-060	60	8	1.2	76.80	5.97 €
44KOMP-080	80	6	1.2	57.60	7.96 €
44KOMP-100	100	5	1.2	48.00	9.95 €

44KOMP140	140	3.5	1.2	33.60	13.93 €

All prices indicated are **list prices** excl. VAT

→ With rain cover:

THERMO JUTE 100 compressed rolls are always delivered with a UV resistant rain cover film. (This also enables storage outside for a longer period of time).

The price per rain cover film is 5.00 €.

All prices indicated are **list prices** excl. VAT

→ DELIVERY TIMES

Insulation materials with the bi-component fibre on PET basis (THERMO HEMP PREMIUM; THERMO HEMP COMBI JUTE AND THERMO JUTE 100) are available within 3 – 10 working days. This applies to customized manufactured mats, too.

Our insulation materials with the bi-component fibre on PLA basis –THERMO JUTE 100 PLUS – is produced in a 14 to 21 days rhythm. We recommend communicating your preferred delivery date as soon as possible with our sales team.

→ PALLETISING

Mats can generally be palletised in the standard measures 1.200 x 625 mm and 1.200 x 580mm. Mats with 2.400 mm length cannot be delivered on pallets. Palletising of customised mats on demand. Please inform us in time.

→ WEATHER PROTECTION HOOD

Do you store our insulation material outside? On request and a surcharge of 5.00 € / pallet we can cover your pallets with a weather protection hood. Please note that for customised mats only conditionally possible. We will be pleased to provide you more information on demand.

All prices indicated are **list prices** excl. VAT

BY PARCEL SERVICE

For the delivery of THERMO NATUR insulation mats by parcel service, the following packaging units need to be abided to not exceed the girth of the packages. Please consider this when placing your order.

THE ADVANTAGES OF THERMO FAÇADE AT A GLANCE:

- ✓ Installation of non-bearing façades minimizing thermal bridges
- ✓ Thus improved insulation value compared to a construction with wooden substructure
- ✓ Installation of all THERMO NATUR insulation materials in customised manufacturing
- ✓ Safe, easy and fast installation
- ✓ Based on the cladding (wooden slats, rendering boards) and the required insulation thickness, we offer a supporting system that meets the requirements for structural analysis as well as the construction specifications.
- ✓ Advice by the THERMO NATUR application technology team
- ✓ Factory-made pre-drilled elements
- ✓ Nothing is glued, ready for installation in all weathers
- ✓ Can be dismantled and recycled in individual parts – no mixed waste

ATTENTION! We will be pleased to submit you a target price for THERMO FAÇADE. With a completed checklist, we can prepare an offer for you. **Please ask us for the checklist or find detailed information on www.thermo-natur.de/en.**

HIGH QUALITY CLAY PRODUCTS

AGATON LEHM® PLASTERS AND PAINTS
AGATON LEHM® CLAY PANELS
AGATON LEHM® WALL HEATING

THE GOOD CLAY.
WITH NATURE'S ADDED VALUE.

AGATON LEHM

AGATON LEHM Clay panels with jute reinforcement

Fields of application: Suited for all interior work. Panelling of wood studding, interior walls, suspended ceilings, partition walls, facing shells and attic finishes. Please observe the technical data sheets.

Article	Description	Thickness in mm	Length x Width in m	PU Piece / Pallet	m ² / PU approx. value	kg / m ²	List price / m ²
80LLP016J	Clay panel, jute reinforcement	16	1.25 x 0.625	60	46.88	23	18.00 €
80LLP022J	Clay panel, Jute reinforcement	22	1.25 x 0.625	40	31.25	32	20.30 €

All prices indicated are **list prices** excl. VAT

THE ADVANTAGES:

Compared with other dry construction boards, the AGATON LEHM clay panel has **a number of strong constructional advantages:**

- ✓ **Very good sound absorption values**
- ✓ **Not flammable according to DIN 13501-1, A1 room side**
- ✓ **Ideal application in timber construction**
 - Quick installation
 - Minimal moisture inlet
 - Short drying time

Accessories for a quick and easy installation:

- Staples and perforated washers HV 36, see page 29
- AGATON LEHM clay undercoat or superior plaster, see page 28
Consumption 9kg / m² with 6mm mesh filler
- AGATON LEHM reinforcement fabrics, see page 29

AGATON LEHM Lightweight hemp clay panel

Fields of application: Suited for all interior work. Panelling of wood studding, interior walls, suspended ceilings, partition walls, facing shells and attic finishes. Produced according to DIN 18948.

Article	Description	Thickness in mm	Length x Width in m	PU Piece / Pallet	m ² / PU approx. value	kg/ m ²	List price / m ²
80HLBP014-100	Lightweight hemp clay panel	14	1.25 x 1.0	80	100	10	18.60 €
80HLBP022-100	Lightweight hemp clay panel	22	1.25 x 1.0	64	80	15	20.60 €

Also available in 10mm thickness as plaster base only

All prices indicated are **list prices** excl. VAT

THE LIGHTWEIGHT HEMP CLAY PANEL

- ✓ Weighs only 15 kg/pc (thickness 22m)
- ✓ Quick installation due to large dimensions
- ✓ Ideal handling, high stability

- Composition: Clay, hemp shives, hemp fibres and double-sided glass-fibre reinforcement
- The perfect interior finishing panel for our hemp and jute insulation

Accessories for a quick and easy installation:

- Staples and perforated washers HV 36, see page 29
- AGATON LEHM clay fine or superior plaster, see page 28
 - Consumption 8 kg /m² superior plaster at 5 mm thickness
 - Consumption 7 kg/m² fine plaster at 4 mm thickne
- AGATON LEHM reinforcement fabrics, see page 29

AGATON LEHM WALL HEATING

BRING THE SUN
INTO YOUR HOME

The perfect heating
and cooling system
for wall, sloping
roof and ceiling.

THE ADVANTAGES

- Pleasant room heating due to a high share of infrared radiation
- Healthy indoor air:
 - > No dust agitation
 - > Moisture-regulating room climate
- Installation at wall, sloping roof and ceiling
- Reduced heating costs
- Material which is free from harmful substances
- Attractive living space without radiators
- Rapid installation and quick drying
- Suitable for old and new buildings
- Ideal application for timber construction

AGATON LEHM WALL HEATING

AGATON LEHM Wall heating

Fields of application: The wall heating impresses with its high share of radiant heat. It is designed for heating and cooling and is used for new and old buildings. It can be combined with existing heating systems. Please observe the technical data sheets and processing instructions.

AGATON LEHM

AGATON LEHM Colours

With AGATON LEHM finishing plasters, painting plasters and clay paints we offer you atmospheric colours from nature. Almost all colours are free from pigments.

All colours can be mixed with one another. The colour depth depends on the light incidence, different application methods and the properties of the finished surface, the colour effect may thus vary considerably.

AGATON LEHM finishing plasters, painting plasters and clay paints have a certain **character of being "alive"** as they consist of natural raw materials.

Same batch containers are therefore used for covering large areas. The final colour shade is evident only after the plaster is completely dry and the effects are manifest. Soluble ingredients in the substrate may migrate and become visible. Always coat a trial surface in case of doubt.

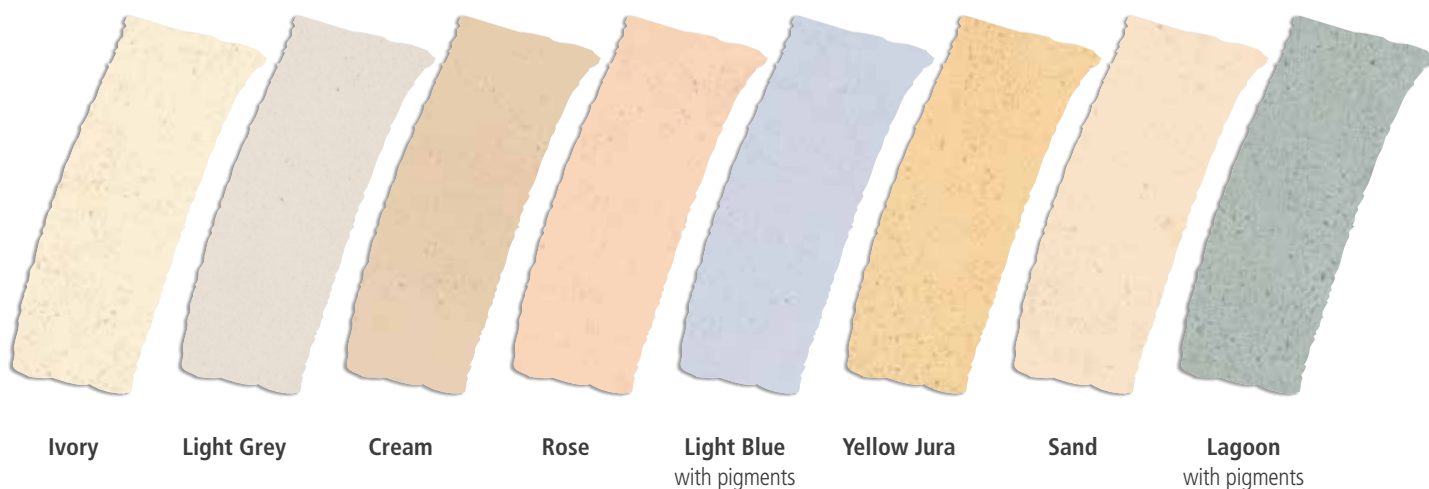

Please also observe the technical data sheets and processing instructions.

These colour shades are always on stock:

These colour shades can be ordered:

These colour shades are only available as AGATON LEHM finishing plasters

Please note:

These 8 additional colours have a longer delivery time. Please order early and with a precise delivery date. Coloured pigments are added to the colours Light blue and Lagoon. Only available as 20 kg buckets.
